34th PIGEON OLYMPIAD (BUDAPEST, 2015)

Address by the President of the FCI,

Dr José TERESO

On the occasion of the 34th Olympiad, which will be held January 2015 in Hungary (Budapest), it is my pleasure to address some words to my fellow pigeon fanciers worldwide.

Pigeon Olympiads are a milestone within racing pigeon exhibitions. The evolution of the modern world has been accompanied by the sport that we embrace. Nevertheless, I urge pigeon fanciers all over the world to unite within clubs, associations and federations. Active participation is essential to the promotion of pigeon fancying. We face innumerable difficulties in this sport that can only

be overcome by the commitment of all pigeon fanciers.

I must stress that the menaces that our sport is facing are various: birds of prey, airplanes, bird flu, etc. Their mitigation implies an additional effort by all of us.

I am sure this 34th Pigeon Olympiad will be an organizational success. Last but not least, my warmest season greetings and a happy new year to the pigeon fanciers' worldwide community.

José TERESO
President, FCI

Dear Guests, dear Racing Pigeon Fanciers,

On 15-18 January 2015 Budapest will be hosting the 34th Pigeon Olympiad

Flying homing pigeons as a sport or hobby connects people from very different walks of life. In Hungary their ranks include big business men and large farmers, too, but it generally remains a pastime for plain people living in the countryside. The Hungarian Racing Pigeon Sports Federation has 5000 registered members, but pigeon racing attracts people on all continents across the globe. Belgium, the Netherlands and Germany have one of the largest numbers of fanciers with more than 30,000–40,000 people, in Poland 50,000 to 60,000 people engage in pigeon racing, and in China their number approximates 1 million. The Hungarian Racing Pigeon Sports Federation is honoured to have been selected from the

65 countries of the FCI to stage the Olympiad as the last time Hungary could host this event was 40 years ago, in 1975. The Pigeon Olympiad in 2015 will present Hungary with an opportunity to build amicable, international cultural and economic relationships with people from other countries through the devotees of a unique hobby. We, Hungarians can be proud of a number of Olympiad gold medallists: Péter Ujházy, 1971; József Bagyula, 1975; József Peller, 1997, 2003, 2005.

The Olympiad in Hungary is supported by ministries, high representatives of the country and other sport associations.

The Pigeon Olympiad is an exhibition and a trade show as well where the world's best racing pigeons are showcased and compete in the sport and standard categories according to their previous achievements. The exhibition will host product shows and conferences related to pigeon keeping.

The Olympiad is expected to pull delegates, guests and tourists from 40 countries all over the world. The event will receive the highest number of visitors from European countries, but guests will also be arriving from China by charter flight.

Our guests will include the President of the Banking Association from Thailand, an illustrious politician from the Portuguese health administration, the heads of several multinational companies from Belgium, the Netherlands and Germany trading in crops and feedstuff, the managers and representatives of

companies manufacturing electronic recording devices and chips in Taiwan, Belgium, Germany and Austria, the Youth and Sports Minister of Trinidad and Tobago and visitors from the United States and the Middle East.

We welcome next to the best Hungarian Racing Pigeon Fanciers as well as the following world famous Racing Pigeon Fanciers: mint Etienne Devos, Gaby Vandenabeele, Gerard Koopman, Hans Eijerkamp, Jan Hermans, Julien Vaneeno, Marcel Sangers, Mark Vandaele, Nicolaas Gyselbrecht, Raymund Hermes, T'Jolin Bruders, Andreas Drapa, Henk de Weerd, Herbots Family, Herman Brinkman, Piet Manders, Erik Vermander, Gino Clique, Sonja Van der Maelen, Emiel Denys, Roger Desmet-Matthys, Pieter Venstra, Jan van de Pasch, Dirk van Dijk, Michel Van Limpt, Machiel Buijk, Martha Vangeele, Frans Hermans, Karl-Heinz Lang, Olteanu Cosmin, Jan Theelen, Anton Ruitenbergh, Frans Labeeuw, Taverne Rigole.

Looking forward to seeing you in Budapest, in one of Europe's and the world's most beautiful capitals for the programs of the 34th Pigeon Olympiad.

A postagalambsport jövője élben - BENZING Live!

Eredmény másodperceken belül BENZING Live!

Az új BENZING Live! elindítja a galambászat jövőjét. Az érkezést követően minden rögzített galamb adata azonnal a www.benzing-live.com oldalra kerül fel. Az eredmények egyből elérhetőek és továbbíthatóak bárhová a világban. A BENZING Live! galambászaik nyomon követhetik saját galambjaik érkezési idejét valamint összehasonlíthatják azt a világ bármely más galambászával. A BENZING Live! megtartja a postagalambászat hagyományait, de egyben forradalmasítja annak technológiáját.

A BENZING Live! egy, a mobiltelefonokhoz is használt SIM kártyával rendelkezik. Az eszköz csatlakoztatása után lehet regisztrálni és egy személyes jelszó használatával hozzá is lehet férni a rendszerhez kényelmesen és biztonságosan.

- ✓ Minden galamb érkezési adatának élő továbbítása a honlapra
- ✓ Minden tréning és verseny élő megjelenítése
- ✓ 24 órás rendelkezésre állás
- ✓ Élő összehasonlítás lehetősége tenyésztők és egyesületek között világviszonylatban
- ✓ A legmagasabb manipuláció elleni védelem időegyeztetési rendszer és GPS koordináták segítségével

Élő összehasonlítás minden galambász között

Először van lehetőség a postagalambászatban arra, hogy azonnal össze tudja hasonlítani saját galambjainak eredményét egyesületi, tagszövetségi szinten akár a világ bármely galambászával. Tehát lehetséges, hogy összevesse eredményét bárkivel a világban

Az érkezési adatok élő adatátvittele

Minden rögzített galamb adata azonnal továbbításra kerül a honlapra. Minden tréning és verseny adata megjelenítésre kerül és elérhető a világ bármely pontján, bármikor, a nap 24 órájában

A legmagasabb manipuláció észlelés

BENZING Live! rendelkezik egy intelligens, szabadalmaztatott időegyeztetési rendszerrel. 3 teljesen független időmérés kerül minden 10 percben összehasonlításra! Emellett a GPS koordináták is továbbításra kerülnek a szerver felé. Ezzel ellenőrizhető, hogy az óra folyamatosan, ugyanabban a dűc-ban van.
